**In the Claims**

Please amend claim 33 as follows:

B<sup>2</sup> --33. (Amended) A device that reads a plurality of information tags, the device comprising:  
an antenna;  
a first processing circuit that generates information from a first information tag;  
and  
a second processing circuit, coupled to the antenna, that utilizes the information to communicate with a second information tag, wherein the second information tag is of a different type than the first information tag.--
